About

Innovating Health Together Conference

The Innovating Health Together Conference (IHTConference) is an international event dedicated to innovation and collaboration in the European Health. Bringing together experts, companies, and health professionals, the conference fosters discussions on the future of healthcare systems, covering important and topical issues for European health. With a dynamic and interactive environment, the

IHTC offers networking opportunities, presentations of innovative projects, and strategic partnerships, creating a privileged space to drive disruptive solutions in the sector. Last year's edition had 600 participants from more than 30 countries.

Let's Innovate Together!
